CALL FOR RISIS COURSE TYPE A

Joint and Open REsearch Programmes: features and potentialities of the JOREP database

CERIS-CNR, Rome – November 27-28, 2014

This course is part of the Training Activities of the RISIS Project [http://risis.eu/training].

1. OBJECTIVES OF THE COURSE

The course aims at introducing the features of the JOREP database, highlighting the specific contents and framing its potential uses in the context of the theoretical background on which have been designed.

More specifically, the course trains the participants to figure out and to address research questions on joint programming within the ERA, using the JOREP infrastructure.

Examples of questions: How relevant are joint programs in the ERA? What kind of integration do they realize? At what level? Which are the main actors involved and how they can be differentiated? How the participation to joint programs can be differentiated by country and disciplines? How skewed is the distribution of resources among joint programmes and what is its impact on the growth dynamics?

The presentation of the technical structure of the infrastructure will facilitate the learning of the techniques of consultation and querying. At the end of the course, the trainees will be able to handle the dataset, creating custom queries according to own research interests.

2. GENERAL CONDITIONS FOR PARTICIPATION

2.1 Potential participants are expected to have interests in using large data sets and developing indicators in their respective areas of professional competence. Training will highlight the opportunities for the end-users, displaying several mode of exploitation of the JOREP dataset.

2.2 The course is addressed to:

✓ **Senior scientists, early career researchers and PhD students at the last phase of their training**;
✓ **Officers from the policy making level** (e.g. funding agencies);
✓ **Research associations.**

2.3 Participants will be asked to bring their PC (with MS ACCESS installed) when attending the course. Basic working knowledge of MS ACCESS and data querying are preferably required. Participants can send some preliminary questions about data handling in MS ACCESS in order to focus on specific topics related to the JOREP dataset.

3. SUBMISSION OF THE APPLICATIONS

Send the **application form** – available at http://risis.eu/training (**direct link**) and www.ceris.cnr.it – and an **updated CV** to **a.spinello@ceris.cnr.it**. You will receive the confirmation once the registration has been processed. In case you do not receive any notification from us within one week, please contact the same e-mail address. **Deadline for submission: October 20, 2014.**

4. SELECTION

Maximum number of participants for the course is 15. Participants will be selected on the basis of their interests and CV. Notification of acceptance and request of confirmation will be sent after the selection process is completed.

5. FEES AND PAYMENTS

5.1 **No fee to be paid.**

5.2 **Travel and accommodation will be covered only in case of researchers, early researchers and PhDs coming from European countries**. Travel and accommodation will be in charge of the organization.

5.3 **No costs are covered for people not involved in research activities** (i.e. people from associations or policy level).

6. SCHEDULE FOR THE COURSE

The course will take place from November 27, 2014 to November 28, 2014. **Complete programme is available on the dedicated page in the RISIS website,** on the **leaflet of the course** and **attached** to this call.

7. VENUE

**CERIS CNR, Institute for Economic Research on Firms and Growth of the National Research Council,
Via dei Taurini 19, Rome, Italy [MAP]**

8. LOCAL ORGANIZING COMMITEE

Dr. Emanuela Reale, Dr. Andrea Orazio Spinello, Dr. Emilia Primeri, Dr. Antonio Zinilli, Dr. Lucio Morettini, Dr. Giovanni Cerulli (CERIS-CNR).

9. CONTACTS AND INFORMATION

Dr. Andrea Orazio Spinello, Research Fellow at CERIS CNR (a.spinello@ceris.cnr.it); http://risis.eu/training; www.ceris.cnr.it.

PROGRAMME AND CONTENTS

**Joint and Open REsearch Programmes:
features and potentialities of the JOREP database**
CERIS-CNR Rome – November 27-28, 2014

Day 1 - November 27, 2014

11:00
Registration

11.15– 11:30
Welcome and presentation

11:30 – 13:00
Theoretical framework behind JOREP database
Free questions and answers

Lunch

14:00 – 15:00
JOREP database: sources, potentialities and
limitations for the data analysis

15:00 – 16:00
Technical structure of JOREP dataset and
characteristics of the variables

Coffee Break

16,30 – 18:30
Presentation and application of querying techniques

Day 2 - November 28, 2014

9:00 – 10:30
Practical computer session on data querying
and data extraction in JOREP dataset
Interactive work

Coffee break

11:00 – 13:00
Exercitations on selected examples and discussion
with the trainees about the results

13:00
Wrap-up
End of the course

Lunch
