RISIS

RESEARCH INFRASTRUCTURE FOR SCIENCE AND INNOVATION POLICY STUDIES

EXPLORING THE EUROPEAN RESEARCH INFRASTRUCTURE FOR SCIENCE AND INNOVATION POLICY STUDIES

WHAT RISIS PROVIDES:

DATASETS

INDICATORS

METHODS

SERVICES

TRAINING

A data and services infrastructure supporting the development of a new generation of analyses and indicators.

RISIS DATASETS

FIRM INNOVATION DYNAMICS

CIB: data and indicators at the firm level for the worldwide R&D corporate performers (4,000 parent companies and their 350,000 subsidiaries).

VICO: information on start-ups that received venture capital or angel investment in the period 1998-2014, and on investors providing capital for these start-ups.

CHEETAH: original data for 42,369 fast-growing mid-size firms (FGMFs) located in 30 European countries (EU-28, Norway and Switzerland) plus Israel.

ISI-TM: provides detailed information on trademarks (as trademark number, applicant and representative information, several relevant dates application, trademark type) filed at the EUIPO and at the USPTO.

EUROPEAN INTEGRATION

ESID: a comprehensive source of information on social innovation projects and actors in Europe and beyond. The full dataset comprises of 9577 projects in total (title, type of social innovation with scores, summary, location and topic.).

EUPRO: information on 96,674 R&D projects and 526,564 participations. Data refer to EU-28 Member States, 13 Associated countries, 14 Third Countries, and International Cooperation Partner Countries.

JOREP: data on European transnational joint R&D programmes. It stores a basic set of descriptors on programmes and agencies participating in the programmes.

KNOWLEDGE DYNAMICS

CWTS publication database: a full copy of Web of Science (WoS) on bibliometric analyses, which enables output and (scientific) impact analyses of any set of publications covered by WoS.

RISIS PATENTS: a database of all patent offices produced by the European patent office (EPO).

NANO S&T: information on publications and patents between 1991 and 2011 about Nano S&T, gathering 1.18 million Nano-related publications and 735,000 priority patents.

PHD AND RESEARCHER CAREERS AND MOBILITY

PROFILE: information of 5,468 doctorate holders from all scientific disciplines on the conditions of their doctoral training and careers.

MORE: three surveys aimed to map mobility and careers of European researchers, respectively named More1, 2 and 3. From 2019, the RISIS infrastructure provides access to the MORE3 on behalf of European Commission.

POLICY LEARNING

SIPER: linked to the OECD-World Bank IPP platform, it contains 768 evaluation reports relating to publicly funded science and innovation support programmes and measures with a focus on the UK and the European Union.

RISIS REGISTERS

ORG-REG: a reference database on universities and public-sector organizations (incorporating the **ETER DB**, PROs and University Hospitals).

FIRM-REG: a reference database on the innovation dynamics of firms (all the business included in the firms datasets which are part of RISIS).
